Petition to prevent the loss of Logue Brook Dam as a pivotal recreational facility for the people of Western Australia

To the Honourable Speaker and Members of the Legislative Assembly of the Parliament of Western Australia in Parliament assembled:

We the undersigned say that:

Logue Brook Dam has been the traditional holiday destination and recreational facility for many thousands of ordinary Western Australians for the past 44 years, and despite plans to build a 100-gigalitre-desalination plant in the Harvey Shire at Binningup, the Carpenter Government wants the 5 gigalitres of water from Logue Brook Dam. This will seriously impact on the social, economic and health well being of the local community.

Now we ask that the Legislative Assembly to support our campaign for the Government to

1. Urgently review its decision to deprive this valuable asset from the many Western Australians, who cannot afford expensive holiday destinations and continue to allow human interaction with the Logue Brook Dam and surrounds.

2. Fix the annual 2.2 gigalitres of water lost to leakage in the Perth metropolitan area.
